INSTRUCTION

King Mongkut's University of Technology Thonburi (KMUTT) can trace its origin to the Thonburi Technology Institute (TTI) which was established on February 4, 1960. TTI became KMIT Thonburi Campus and then King Mongkut's Institute of Technology Thonburi (KMUTT).

On March 7, 1998 as announced in the Royal Gazette, KMITT became King Mongkut's University of Technology Thonburi (KMUTT).

KMUTT is the first among public universities in Thailand to receive full autonomy. Its administrative system is now patterned after international government owned universities.

The new act gives KMUTT total control over its budget, allows it to own and manage property, and grants authority to set up new faculties and departments, as well as introduce new academic programs.
